

We offer people a microcosm farm experience and provide education about optimizing personal and planetary health.

SOLUTION

We created this space so youth and families could get their hands in soil, connect with animals, and learn about the importance of where our food comes from. We highlight a plant-based diet and regenerative agriculture as solutions to be part of change.

REGENERATIVE AGRICULTURE

This method focuses on rebuilding organic matter and living biodiversity in soil, which produces increasingly nutrient-dense food year after year - while rapidly sequestering excess atmospheric carbon underground to reverse climate change.

SMALL DAILY CHOICES

Here at the Farm, we offer an example of how small changes contribute to a bigger change. When each of us opts for a plant-based diet for a day, the amount of water saved is measurable.

1. Try out Meatless Monday - or better yet, a plant-based lifestyle
2. Take part in regenerative agriculture
3. Sign up to get youth life coaching!

GET INVOLVED

1. Volunteer

- We welcome volunteers weekly to help further our work toward change

2. Sponsor an Animal

- Rescuing is a labor-intensive and costly endeavor. Your sponsorship allows us to increase these efforts

3. Realtor Locator

- Work with MPWRD Real Estate to find a realtor to work with. A portion of investment funds the farm

4. Live MPWRD Coaching Program

- Sign up youth to get coached
- Get a specialty in youth life coach training
- Become an affiliate and refer!

5. Donate

- More funding means more animals rescued, more youth we can educate, and a more robust farm sanctuary experience!
